CYOS

CREATE YOUR OWN SUPPLEMENT

WHITE LABEL TEMPLATE

- Please supply files as CMYK (not RGB) and set all solid black to:
  C 20%, M 20%, Y 20%, K 100%.

- Please make sure these sizes are correct for your product.

- Please make sure your text has been converted to outlines.

PRINTING GUIDLINES

Blue dashed line is the internal margin

Keep all essential text within this internal margin to ensure it doesn't get cut off.

Black line (the Illustrator artboard) is the trim area

This is where the finished label will be cut.

WHAT TO DO NEXT

1. Open the template in Illustrator, pick the correct artboard to match your desired label size (the Illustrator file contains 3 artboards) and create your custom design.

2. Once you have completed your design; check that you have followed the above rules for artwork specifications and save it as a PDF. Make sure to choose "JPEG compression" in the PDF export options so the resulting file isn't too large.

3. Return to your desired White Label product on our site and upload your artwork using the file upload field.

4. Relax, while we take care of the rest!
